## 1. Šobrīd aktuālie

Tuvojas vasara un katrā dienā atvairinājumi iespējams. Tomēr kritiskā finansiālā situācija Latvijā zinātnē daudzus zinātniekus ir ierindojuši nabagu kārtā un domas par tuvāko nedaudz imenes budžetu neatstāj vietu zinātnes un zinātniskās lietmešanai un ar atvairinājumiem (*ja tie nav piespiedu bezalgas*). Valdība un ministri dzīvo pasaulē, kur laiks rit par katru līniju (*algas nav saistītas ar stresaino projektu dzīvi utt.*) un mazāk laika mērvienība reti ir mazāk par gadu. Gadu vārtīsim Latvijā zinātnes sasniegumus, izplānosim struktūrfondu izmantošanu līdz 2020. gadam, tad rakstīsim konkursu noteikumus zinātniekiem un draugiem konsultantu firmās. Ieguldīsim celtniecības sektorā, ceļot zinātnes mājas. Bez tādām iztikām nevar, jo kaut kā jau Briselei būs jāatkrāp par Struktūrfondu naudas ieguldījumiem zinātnē. Brisele jau nepamanīs, ka Latvijā to iegulda birokrātijā. Tas nekas, ka līdz 2020. gadam pastāvot patreizējām tendencēm zinātnieku skaits valstī turpinās sarukt un patreizējo 4000 vietu uz paprabūs tikai 2000. Mūsu valsts ekonomikas „guru” un Valdības padomnieki **ES Innovation Scoreboard** indikatorus neuzskata par nopietniem emamiem salīdzinājumā ar inflāciju, GDP vai importa eksporta indikatoriem. Diemžēl, šā tumsība ir mūsu valsts nabadzības pamats.

Aizvien vēl no Valdības gaidām nepropotamu un taustamu signālu, ka Latvijai un latviešiem zinātniekiem ir vajadzīgi.

Šobrīd vienīgais vēl emamais motivators ir „**vecmod gais**” zinātnieku godaprāts. Tas liek darboties un ar stratēģiskā plānotā savu, gan sava kolektīvā nākotni. Tā mēģinām, kuras neizmantos vēl pieejamās FP7 iespējas ir mazāk izredzētas uz panākumiem HORIZON-2020. Jau tagad ir jāskatās darba programmas konkursiem, kuri tiks izsludināti š.g.10. jūlijā un jāiekļaujas stipros konsorcijs, kuri startēs šajos konkursos. Stiprākās komandas zinātnu institūtos domā par vēl konkrētākiem iespējamiem tādām dabūt uz savu laboratorijām M-C stipendijas no ES un valstīm rpus tās robežos un gada laikā pastiprināt savu intelektuālo kapacitāti. Kādām dabūt uz savu institūtu pirmos Eiropas Zinātnes padomes grantu turētājus utt. (*skat info POPLES un ERC sadaļās*).

**Health and biotech brokerage event** will take place on 13 June 2012 in Rome, Italy. The conference is being organised by the Italian Agency for the Promotion of the European Research. It will highlight the 2013 Work Programme of the 'Health' theme of the Seventh Framework Programme (FP7). The Programme is due to be published on 13th June 2012. The programme will consist of plenary sessions and several...

**21st Nordic Congress of Gerontology** will take place on 10 to 13 June 2012 in Copenhagen, Denmark. In almost every country, the proportion of people aged over 60 years is growing faster than any other age group. This population ageing can be seen as a success story for public health policies and for socioeconomic development, but it also challenges society to adapt, in order to maximize the health

**Translational genomics pipeline: from populations to individuals', Cambridge, UK** will take place from 18 to 21 June 2012 in Cambridge, UK. The ability to better diagnose, treat, and ultimately cure disease depends on understanding its genetic causes and translating this information into new diagnostic tests and therapeutics. Translational research provides the data and tools necessary to identify...

**'The spark of life'** will take place from 19 to 20 June 2012 in London, UK. Ion channels are pore-forming proteins that help establish and control the voltage gradient across the plasma membrane of cells by allowing the flow of ions down their electrochemical gradient. They are present in the membranes that surround all biological cells and regulate the electrical activity of the body....

**'Sub-nuclear structures and disease'**, will take place on 28 June to 1 July 2012 in Cambridge, UK. The biology of sub-nuclear structures includes the nucleolus, Cajal and PML bodies. These have key roles in normal and disease cells as they interact in a dynamic way. A fundamental understanding of these sub-nuclear structures can lead to advances in the understanding of infectious...

**'Fluorescent biomolecules and their building blocks - design and applications'** will take place from 5 to 8 July 2012 in Göteborg, Sweden,. Fluorescent probes enable researchers to detect particular components of complex biomolecular assemblies, such as live cells, with a high degree of sensitivity and selectivity. The use of fluorescent molecules has become a standard in many applications...

**'Angiogenesis, metabolism and cancer'** will take place from 6 to 8 July 2012 in Leuven, Belgium. The formation, function and remodeling of the vasculature (blood vessels or arrangement of blood vessels in an organ or body part) is closely linked to the metabolic needs of the tissues it serves. Tools to investigate the complexity of molecular, cellular, and metabolic interactions among...

The event, organised by the Commission's -DG Research and Innovation is being organised to highlight the 2013 Work Programme of FP7 KBBE , which is due to be published on 10 July 2012. The programme will consist of plenary sessions and several parallel workshops on participating...

**Workshop on data mining in life sciences** will take place on 20 July 2012 in Berlin, Germany. Data mining in biology and medicine is a core component of biomedical informatics. It is also one of the first intensive applications of computer science to this field, whether at a clinic, the laboratory, or the research center. Current biomedical data mining applications are taking on multifaceted roles in...

**Uzman bu!** 20.07.2011 public tie projektu konkursi ir nosl gušies 15.11.2011.

### **Uzman bu, konferences:**

**Ninth European Workshop on Biotechnology of Microalgae, Nuthetal, Germany** will take place from 4 to 5 June 2012 in Nuthetal, Germany. Typically found in freshwater and marine systems, microalgae are capable of performing photosynthesis. They produce approximately half of the atmospheric oxygen and use simultaneously the greenhouse gas carbon dioxide to grow photoautotrophically. The biodiversity of microalgae is enormous...

**Sixteenth International Silage Conference** will take place from 2 to 4 July 2012 in Hämeenlinna, Finland. Silage is fermented, high-moisture fodder that can be fed to ruminants (cud-chewing animals such as cattle and sheep) or used as a biofuel feedstock for anaerobic digesters. It is fermented and stored in a process called ensiling or silaging, and is usually made from grass crops, including corn...

[36th Annual Larval Fish Conference](#) will take place from 2 to 6 July in Bergen, Norway. Fish larvae and zooplanktons are an indicator of an ecosystem's health status. For example, degraded water, including extensive hypoxia, toxic phytoplankton blooms, acid-sulphate run-off and chemical spills, creates conditions that are unfavourable for survival of highly sensitive fish larvae and other zooplankton....

['Eurosoil 2012: soil science for the benefit of mankind and environment'](#) will take place from 2 to 6 July 2012 in Bari, Italy. Soil science is the study of soil as a natural resource. Scientists have raised concerns about how to preserve soil and arable land in a world with a growing population, possible future water crisis, increasing per capita food consumption, and land degradation..

### II. Projektu konkursi

#### Uzmanību!

- PPP projektu konkurss par Nākotnes internetu atvērta 2012.gada 18.maijā un slēgta 24.oktobrī.
- 2012.gadā tiek plānoti divi projektu konkursi ar kopējo finansējumu 1 455 M€.

### III. Darba programma

EK uzskata darbu pie 2013.gada darba programmas izstrādes, kas plānota kā pārjaukta uz jauno *Horizon 2020*.

### IV. Partneru meklēšana

- Partneru meklēšanas servisu 7.IP IKT projektu konkursiem, kā arī KIP IKT (PSP ICT) projektu konkursiem nodrošina Ideal-ist projekts. Visus pieteiktos partneru meklējumus iespējams skatīt: <http://www.ideal-ist.eu/partner-search/pssearch>. **Uzmanību!** web lapai it mainījies gan tā uzskatītājs, gan tā adrese; iepriekš reāliem tiem lietotājiem jāveic jauna reāliem šāns (bet partneru piedāvājumu var aplūkot BEZ reāliem cijas).

[12th International Conference on Next Generation Wired/Wireless Advanced Networking, St. Petersburg, Russia](#) will take place from 27 to 29 August 2012 in St. Petersburg, Russia. Next-generation mobile networks are evolving from existing wired and wireless networks. Next-generation multimedia services are posing new challenges on how traffic is managed, including the ensuring of multilayer cooperation. Research on networks...

[Third International ICST Conference on Sensor Systems and Software, Lisbon, Portugal](#) will take place from 4 to 6 June 2012 in Lisbon, Portugal. Wireless sensor networks enable innovative and interesting application scenarios that may support a wide variety of applications. The widespread acceptance of these new services can be...

[Workshop on runtime and operating systems for supercomputers, Venice, Italy](#) will take place from 25 to 29 June 2012 in Venice, Italy. The complexity of node architectures in supercomputers is increasing as development progresses. Factors such as rising levels of parallelism in multi- and many-core chips, the emerging heterogeneity of computational resources, and energy and memory constraints, are forcing a re-evaluation...

[Second International Workshop on Information Systems Security Engineering, Gdansk, Poland](#) will take place on 25 June 2012 in Gdansk, Poland. As information and communications technology systems become increasingly complex, security problems are growing concern. Among scientific community stakeholders, the importance of aligning information systems engineering and security engineering in order to develop more secure...

[11th IEEE Conference on Ubiquitous Computing and Communications, Liverpool, UK](#) will take place from 25 to 27 June 2012 in Liverpool, UK. The term 'ubiquitous computing' refers to information processing where computers are integrated into everyday objects and activities. The field has been the result of rapid research and development advances in a wide range of...

['Workshop on the security of the internet of things', Munich, Germany](#) will take place on 30 July 2012 in Munich, Germany. There are a variety of definitions for the phrase 'internet of things'. They have one common element, though - a world-wide network of interconnected objects. These objects make use of multiple technological building blocks (e.g. wireless communication, sensors, actuators, RFID) and...

[Second International Workshop on High-performance Infrastructure for Scalable Tools, Venice, Italy](#) will take place from 25 to 29 June 2012 in Venice, Italy. From laptops to supercomputers, increasingly complex multicore and accelerator hardware is driving rapid growth in concurrency. At the high

end, exascale systems are expected to support over 100 million threads, primarily due to increased intra-node concurrency....

**Fifth International Conference: From Scientific Computing to Computational Engineering** will take place from 4 to 7 July 2012 in Athens, Greece. Computational science (or scientific computing) deals with constructing mathematical models and quantitative analysis techniques and using computers to analyse and solve scientific problems. In practical use, it is typically the application of computer simulation...

**'Workshop on formal methods and automated software engineering for cloud computing'** will take place from 4 to 7 September 2012 in Fukuoka, Japan. With the development of mobile and internet applications, cloud computing is becoming increasingly important. More and more data are in the cloud. It is thus very important to have reliable, safe and secure cloud environments.

**'Workshop on inferring: interactions between inference and learning'** will take place on 30 June 2012 in Edinburgh, UK. Algorithms can not only learn a model, but they can also use the resulting model parameters for inference. These types of interactions are usually studied from two perspectives. The first perspective studies how the choice of an inference algorithm influences the parameters...

## VI. Eiropas Tehnoloģiju platformas un vienotās programmas

## 2.5. NANOSCIENCES, NANOTECHNOLOGIES, MATERIALS AND NEW PRODUCTION TECHNOLOGIES

**Uzmanību, uz šo brīdi neviens projektu konkurss nav izsludināts!**

**Uzmanību, Konferences:**

**Sixth International Conference on the Fundamental Science of Graphene and Applications of Graphene-Based Devices** will take place from 4 to 8 June 2012 in Delft, the Netherlands. Graphene is an allotrope of carbon, with a structure of one-atom-thick planar sheets that are densely packed in a honeycomb crystal lattice. A growing number of experts are researching how graphene can be used in a variety...

**Partnership event for FP7 NMP and PPP calls** will take place on 12 June 2012 in Lyon, France. Ahead of upcoming Seventh Framework Programme (FP7) calls in nanotechnology, nanosciences, nanomaterials and new production technologies (NMP), and public-private partnerships (PPP) for research, the event will help attendees to network and organise project proposals. The agenda will include the following areas:...

**'Materials for hydrogen storage - future perspectives'** will take place from 14 to 18 June 2012 in Hurdgruten, Norway. Hydrogen storage describes the methods for storing hydrogen for subsequent use. Storage methods span many approaches, including high pressures, cryogenics, and chemical compounds that reversibly release hydrogen upon heating. However, a lack of practicality in application...

**First European Mineralogical Conference** will take place from 2 to 6 September 2012 in Frankfurt, Germany. Mineralogy is the study of chemistry, crystal structure, and physical properties of minerals. Specific studies within mineralogy include the processes of mineral origin and formation, classification of minerals, their geographical distribution, as well as their utilisation. Minerals are essential...

'New frontiers in anisotropic fluid-particles composites' will take place from 28 to 29 June 2012 in Buckinghamshire, UK. Anisotropy is the property of being directionally dependent, as opposed to isotropy, which implies identical properties in all directions. It can be defined as a difference, when measured along different axes, in a material's physical or mechanical properties.

Seventh International Workshop on Nano-scale Spectroscopy and Nanotechnology will take place from 2 to 6 July 2012 in Zurich, Switzerland. The results of nano-science are becoming increasingly used in the modern world. Objects with nanometer dimensions are found in computing and electronics, catalysis, photonic- and structural materials. Still fabricating such nano-objects and properly characterising...

### III. Darba programma

Eiropas Komisija uzsūcusi 2013.gada Projektu konkursu sagatavošanu, to paredzēts atvērt 10.jūlijā. Enerģētiskās Darba programmas paredzams (*iespējamas izmaiņas*):

- Eiropas solis enerģijas rīcības iniciatīvas ietvaros: –Hibrīds koncentrētās PV un koncentrētās solāras enerģijas sistēmas; –Metodes tiešsaules radiācijas noteikšanai; –Augstas temperatūras solārie termomiskie procesi.
- Eiropas Bioenerģijas rīcības iniciatīvas ietvaros: –Pirmskomercielas izplatīšanas fāzē demonstrēšanas projekts – rīcības mērķa parafinācija biodeģvielas rīcības izveidošanai aviācijas sektoram; –ERA-Net Plus: Eiropas Bioenerģijas industriāli iniciatīvas demonstrēšana; –Reģionālās un visas Eiropas mērķa struktūras izveide ilgtspējīgai biomasas izejvielu piegādei visas Eiropas mērķa integrētā tirgū.
- Eiropas Vēja enerģijas rīcības iniciatīvas ietvaros: –Progresīva aerodinamiskā modeļa, konstrukcijas un testēšana liela izmēra rotoru līstīnēm; –ERA-Net Plus – Eiropas Vēja atlasis; –Inovācijas transporta un ieviešanas sistēmās jūrās vēja enerģijas sektoram (kopā ar Transporta tīklu).
- Eiropas Elektriskā tīkla rīcības iniciatīvas ietvaros: –Demonstrēšanas projekts – liela apjoma PV enerģijas integrēšana elektriskajā tīklā; –Pāļošanas noteikumi un testēšanas metožu uzlabošana tīkla infrastruktūras savienošanai ar elektrisko transportu; –Uzlabotas metodes visas Eiropas mērķa pārvades tīklu drošuma novērtēšanai; –Demonstrēšanas un sistēmas pārbaudes projekts – inovatīvu pārvades un uzglabāšanas tehnoloģiju integrēšana, izveidojot (starp)savienojumus atjaunojamās enerģijas ražošanai tīklā no patērētājiem; –Iesaistīto pušu atbalsta nodrošināšana attiecībā uz nākotnes tīklu infrastruktūru; –Metožu un rīcības attīstīšana, lai atbalstītu sadales un pārvades tīkla operatoru jaunās funkcijas izkliegt atjaunojamās enerģijas ražošanas integrēšanai.
- Eiropas Oglekļa satveršanas un saglabāšanas rīcības iniciatīvas ietvaros: –Uzlabotu augstas efektivitātes satveršanas procesu ieviešana; –Sekundārā un mazīnā šāda noplūdes gadījumā neoloģiskā uzglabāšanas vietm.
- Eiropas Progresīvo pilsētu un kopienu iniciatīvas ietvaros: –Inovatīva pilsētā nošana un modeļa šāda; –Optimizētā elektriskās un apkures/dzesēšanas sistēmu demonstrēšana; –Gandrīz nulles enerģijas rajona renovācijas demonstrēšana (Enerģoefektīvas publiskās un privātās sektora partnerības).
- Atbalsts kopīgo programmu ieviešanai: –Atbalsts kopīgo programmu starp dažādiem pētījumu stenotājiem inovatīvai pārtīcībai, kas atbalsta Eiropas energotehnoloģiju stratēģiskā plāna Pārtīcības un Inovācijas programmu.
- Darba programmas iekārtas sadales, kas tieši veidneattiecas uz Eiropas rīcības iniciatīvu ieviešanu: –Enerģijas uzkrāšana; –Okeāna enerģija; –Eotermāla enerģija; –Hidroenerģija (dens turbīnu optimizācija); –Solāra termāla enerģija; –Sadarbība ar Vidusjūras valstu partneriem; –Atbalsta aktivitātes PV un bioenerģijas tehnoloģiju platformām.

### IV. Partneru meklēšana

- 2012.gada 4.jūlijā publicēta EK infodienas par Enerģitikas projektu konkursiem;  
*'20th European biomass conference and exhibit'* will take place from 18 to 22 June 2012 in Milano, Italy. Biomass is a renewable energy source. It can either be used directly, or converted into other energy products such as biofuel. With fossil fuel prices continuing to rise and policymakers seeking to move to more sustainable options, biomass is increasingly an interesting alternative....

*'Energy landscapes', Obergurgl, Austria* will take place from 16 to 21 July 2012 in Obergurgl, Austria. In chemical physics, the behaviour of many studied systems is typified by the presence of competing interactions. This means that topography and topology, as defined by the potential energy function, are very complex, with an exponential number of local minima separated by energy barriers. Usually no suitable...

To do this, a variety of entities, from police to military forces, medical organisations, civil society organizations and others, have to collaborate and act...

**Second International Workshop on Information Systems Security Engineering** will take place on 25 June 2012 in Gdansk, Poland. As information and communications technology systems become increasingly complex, security problems are growing concern. Among scientific community stakeholders, the importance of aligning information systems engineering and security engineering in order to develop more secure...

[11th Annual Workshop on the Economics of Information Security](#) will take place from 25 to 26 June 2012 in Berlin, Germany. As information security and privacy continue to grow in importance, threats to privacy are proliferating. The security of information systems and the privacy offered by them depends on more than just technology. They require an understanding of the incentives and trade-offs inherent...

['Security in information systems'](#) will take place on 28 June 2012 in Wroclaw, Poland. Information systems security is one of the most pressing challenges facing all kinds of organisations today. Although many companies have discovered how critical information is to the success of their business or operations, very few have managed to be effective in maintaining their information secure,...

['International conference on engineering of complex computer systems'](#) will take place from 18 to 20 July 2012 in Paris, France. New real-time systems have increasingly complex architectures because of the intricacy of the multiple interdependent features they have to manage. They must meet new requirements of reusability, interoperability, flexibility and portability. These new dimensions...

[Fourth International Conference on Monitoring, Simulation, Prevention and Remediation of Dense and Debris Flow](#) will take place from 29 to 31 May 2012 in Dubrovnik, Croatia. Debris and hyper-concentrated flows are among the most frequent and destructive of all water related processes. They mainly affect mountain areas in a wide range of morpho-climatic environments. In recent years, the flows have attracted...

['Perspectives in discrete mathematics'](#) will take place from 24 to 29 June 2012 in Bellaterra, Spain. Discrete mathematics is the study of mathematical structures that are fundamentally discrete rather than continuous. The field is often used in studying and describing objects and problems in branches of computer science. Over the past few decades, the interaction of discrete mathematics...

[Quantum interaction'](#) will take place from 26 to 29 June 2012 in Paris, France. The field of quantum interaction applies quantum theory to domains ranging from economics and artificial intelligence to human language and political science. These application areas operate at a macroscopic scale and could not be considered quantum in a quantum mechanical sense. However, they may share...

[New frontiers in anisotropic fluid-particles composites'](#) will take place from 28 to 29 June 2012 in Buckinghamshire, UK. Anisotropy is the property of being directionally dependent, as opposed to isotropy, which implies identical properties in all directions. It can be defined as a difference, when measured along different axes, in a material's physical or mechanical properties.

[Third International Workshop on Euler Diagrams](#) will take place on 2 July 2012 in Canterbury, UK. The Euler diagram is a diagrammatic means of representing sets and their relationships. These diagrams have become the foundations of various visual languages and have notably facilitated the modeling of, and logical reasoning about, complex systems. Over the years, they have been extensively used in...

['International symposium on management intelligent systems'](#) will take place from 11 to 13 July 2012 in alamanca, Spain. Artificial intelligence (AI) often focuses on the development of valuable, automated solutions to problems that would otherwise require human judgement and analysis. In this type of decisional situation, issues can be far from being well-structured. Developing and...

[Third Workshop on Trustworthy Self-Organising Systems](#) will take place from 14 to 16 July 2012 in Paris, France. Trust and its different facets are a primary concern in self-organising systems. The incorporation of trust can lead to gains with regard to performance, robustness, security and ease of use. Formal methods to guarantee functional correctness, safety, and security have been investigated...

[Seventh International Workshop on Artificial Neural Networks and Intelligent Information Processing](#) will take place from 30 to 31 July 2012 in Rome, Italy. Over the past few years, bio-inspired artificial intelligence has shown significant potential in meeting applicative and technological challenges in the industrial, socioeconomic or environment fields.
