### 1. Š br ža aktualit te

2013. gads ir p d jais 7.IP gads un uz šo br di ir atv rti tikai daži konkursi! Ir j izv rt iesp jas un idejas un j s k gatavoties HORIZONTS 2020 konkursiem. Tom r veiksmē v l aktu los 7.IP konkursos var b tiski nostiprin t j su zin tnis s grupas, jo tie ir konkursi cilv ku resursu jom . L dzu, piev rsiet uzman bu sada ai 2.14. REGIONS of KNOWLEDGE, kur tiek sludin ts ERAchairs konkurss ar termi u 30.05.2013. T ir iesp ja konkursa k rt b aicin t uz savu grupu loti pieredz jušu zin tnieku, kuram b s resursi, lai veidotu savu komandu 5-6 cilv ku sast v darbam 6 gadu garum . Sagaid m konkurence b s oti skarba, bet l dzdal ba konkurs dos pieredzi, kas lieti noder s l dz gos konkursos HORIZONTS 2020.

Sada 2.13., t.i. PEOPLE programm ir atv rti 4 M-C stipendiju konkursi, kuri pied v izbroukšanas un iebroukšanas stipendijas ES iekšpus un ar p ri robež m. Latvij M-C stipendi tu skaits nav liels, bet šo cilv ku „klubi š” ir iespaid gs ar savu zin tnis ko kapacit ti. Divi no M-C stipendi tiem - Dr. Aigars Ekers un Dr. J nis Kovi š tagad vada instit tus, kuri ir l deru grup ; dr. J nis Alnis tagad atgriežas Latvij lai str d tu FOTONIKA-LV projekt p c vair ku gadu darba Nobela pr mijas laure ta prof. Teodora Henša laboratorij s Maksa Planka Kvantu optikas instit t Minhen ; Dr. K rlis Gross (biokeramiku joma) un Dr. Guntars Vaivars ( de raža ener tika) tagad oti sekm gi un intens vi realiz savas idejas Latvij .

Min tie konkursi paver ce u jauniem pan kumiem un vajag atcer ties, ka varam aicin t pie mums ar cittautiešus un paši varam braukt ar M-C stipendiju pie kol iem uz cit m valst m.

### 2.2. HEALTH

**Uzman bu, visi 2012.gada 10.j lij public tie HEALTH konkursi ir nosl gušies:**

Tagad ir svar gi sekot l dzi HORIZON-2020 pirmajiem kunkursu sludin jumiem 2013.gada otr pus .

**Uzman bu konferences:**

**‘Cellular polarity: from mechanisms to disease’**, A workshop entitled ‘Cellular polarity: from mechanisms to disease’ will take place from 15 to 16 April 2013 in London, UK. Cell Polarity refers to spatial differences in the shape, structure, and function of cells. Almost all cell types exhibit some sort of polarity,

which enables them to carry out specialized functions. Dysregulation of cell polarity can cause development disorders and cancer. Although...

**10th International Conference on Modelling and Measurement in Medicine and Biology**, The 10th International Conference on Modelling and Measurement in Medicine and Biology will take place from 24 to 26 April 2013 in Budapest, Hungary. Advances in medical and biological technology are transforming medical care and treatment; in part, due to the interaction and collaboration between medical sciences and engineering. This has resulted in substantial progress in health care and in the quality...

**'International Conference on Aging and Cognition'**, The 'International Conference on Aging and Cognition' will take place on 25 to 27 April 2013 in Dortmund, Germany. Changes in cognitive function, such as slow information processing, are common in normal aging. However, their extent varies considerably from one person to another, and cognitive decline is not inevitable. However, its causes remain unknown. The event will bring together American and European...

**Second GRF One Health Summit, Davos, Switzerland** will be held from 17 to 20 November 2013. One Health promotes an integrated approach to public health, reflecting the interconnectedness of a larger ecological system. It is a worldwide strategy for expanding interdisciplinary collaborations and communications in all aspects of healthcare for humans, animals and the environment. The synergies...

**10th International Conference on Modelling and Measurement in Medicine and Biology**, will take place from 24 to 26 April 2013 in Budapest, Hungary. Advances in medical and biological technology are transforming medical care and treatment; in part, due to the interaction and collaboration between medical sciences and engineering. This has resulted in substantial progress in health care and in the quality...

**'Space in the brain: cells, circuits, codes and cognition'**, A conference entitled 'Space in the brain: cells, circuits, codes and cognition' will take place on 1 May 2013 in Buckinghamshire, UK. Recent discoveries have revealed the microstructure of the brain's representation of self-location in the hippocampal formation, providing an ideal model system for investigating the neural codes of memory and cognition.

**'Mitochondria: from Signaling to Disease'**, A symposium entitled 'Mitochondria: from Signaling to Disease' will be held from 5 to 7 May 2013 in Lisbon, Portugal. Early studies of mitochondria focused on their bioenergetic role, but scientist now appreciate the importance of these organelles in a wide range of cellular functions and signalling events. The development of animal models, systems-based approaches and dynamic imaging techniques are proving...

**'Chromatin and Epigenetics'**, will be held from 8 to 12 May 2013 in Heidelberg, Germany. What if your decision to smoke a cigarette or eat another bag of chips didn't just affect your health, but also your kids' health? Take that a step further. What if your lifestyle choices affected their children's health - and then the next generation and even the next? As it turns out, there may be...

**'From antibodies to bicycles'**, An event entitled 'From antibodies to bicycles' will be held on 21 March 2013 in London, UK. In recent years a revolution has occurred in the pharmaceutical industry, with therapeutic antibodies displacing small molecule drugs as blockbuster pharmaceuticals. Our immune system produces a wide variety of antibodies for fighting infections, but it wasn't until the 1970s that researchers were able to manufacture...

**'European Brain Research Successes and Next Challenges'**, A conference on 'European Brain Research Successes and Next Challenges' will be held within the framework of the European Month of the Brain on 14 May 2013 in Brussels, Belgium. Brain research has made great progress over the last decades but much more is still to be discovered. Advances in neuroscience are crucial to keep our ageing societies and our economy healthy. Brain-related disorders are due...

**'Applied Bioinformatics & Public Health Microbiology 2013'**, An event entitled 'Applied Bioinformatics & Public Health Microbiology 2013' will take place from 15 to 17 May 2013 in Cambridge, UK. Genetic data is a treasure trove for researchers and companies interested in how genes contribute to our health and well-being. Researchers are using bioinformatics to identify genes, establish their functions and develop gene-based strategies for preventing, diagnosing,...

**'Allergy and Asthma 2013'**, will be held from 23 to 24 May 2013 in Bruges, Belgium. Ilergies are the most prevalent chronic diseases in Europe. Allergies to airborne substances have been growing steadily over the past few decades and this trend is far from ending. This is especially true for children, who show a higher incidence of allergic diseases. If this continues, 40% of the European...

**Ninth International Workshop on HIV and Hepatitis Co-infection**, The Ninth International Workshop on HIV and Hepatitis Co-infection will be held from 30 to 31 May 2013 in Rome, Italy. With the success of antiretroviral therapy, HIV-infected patients are seeing improvement in longevity, only to be challenged with the dangers and complications of additional viral infections. One can get some forms of viral hepatitis the same way he gets HIV. Persons with HIV infection...

### 2.3. FOOD, AGRICULTURE, FISHERY, AND BIOTECHNOLOGY

**Uzmanību, 2012.gada 10.jūlijā publicētie konkursi nosaukti saskaņā ar februāra**

**Uzmanību, konferences:**

**'International partnering event for research and innovation in health and agrofood'**, will take place from 26 to 27 June 2013 in Basel, Switzerland. The first day of the event will start with company visits in the health and agrofood sectors and end with a networking dinner in the evening. On the second day, the morning will begin with plenary presentations on research and development, market and financing...

**'Protein Engineering: New Approaches and Applications'** will be held from 10 to 12 April 2013 in Chester, UK. Protein engineering has proved pivotal to our molecular understanding and adaptation of proteins by allowing us to interact and manipulate the very coding sequence that underlies folding, structure and function. Protein engineering is currently undergoing a renaissance with the...

**Second International Conference on Food and Environment**, The Second International Conference on Food and Environment will take place from 22 to 24 April 2013 in Budapest, Hungary. Food and agriculture has been and still is at the heart of our civilizations. While in many parts of the world the lack of food is a primary concern, in others, the variety of available food is of concern. Over the past decades, the increased use of intensive farming to alleviate...

**'EUROFOODCHEM XVII'**, A conference entitled 'EUROFOODCHEM XVII' will be held from 7 to 10 May 2013 in Istanbul, Turkey. If the demand for food for human consumption is due to increase, the focus on quality and value-added food products will increase logarithmically especially in view of recent developments in the EU. Foods and food processing technologies have had a long history of use and were generally considered safe.

**'BIO-Europe 2012'**, An event entitled 'BIO-Europe 2012' will take place from 13 to 15 May 2013 in Hamburg, Germany. Now on its 18th edition, BIO-Europe is a forum for innovative start-ups, established biotech companies, and large and midsize pharma to present information on products, partnering opportunities and corporate strategy. Delegates from the whole biotechnology value chain come to BIO-Europe to quickly identify,...

**21st European Biomass Conference and Exhibition**, The 21st European Biomass Conference and Exhibition will be held on 3 to 7 June 2013 in Copenhagen, Denmark. To counter the increasing dependence on imported energy sources, the European Union (EU) has decided to move towards more sustainable options, which should also help it to meet the 20% renewable energy target by 2020. Biomass is one of these options. It can either be used directly or converted...

### IV. Partneru meklēšana

- Partneru meklēšanas servisu 7.IP IKT projektu konkursiem, kā arī KIP IKT (*PSP ICT*) projektu konkursiem nodrošina *Ideal-ist* projekts. Visus pieteiktos partneru meklējumus iespējams skatīt: <http://www.ideal-ist.eu/partner-search/pssearch>. Nopietniem interesentiem par līdzdalību konsorcijs ieteicams pašiem aplūkot piedāvājumus Internetā, jo nereti tieši atbildes trūkst ir veiksmes nosacījums.

**V. Konferences, semināri, informācijas dienas, interesanti pasākumi** ([http://ec.europa.eu/information\\_society/newsroom/cf/news.cfm?redirection=1&item\\_type=calendar&tpa\\_id=7](http://ec.europa.eu/information_society/newsroom/cf/news.cfm?redirection=1&item_type=calendar&tpa_id=7)):

### 2.5. NANOSCIENCES, NANOTECHNOLOGIES, MATERIALS AND NEW PRODUCTION TECHNOLOGIES

**Uzmanību, Visi desmit 2012.gada 10. jūlijā atvērtais konkursi ir noslēgti:**

**Uzmanību, Konferences:**

**'Quantitative Analysis of Grain Size'**, A course entitled 'Quantitative Analysis of Grain Size' will be held on 18 July 2013 in York, UK. Metals, except in a few instances, are crystalline in nature. Single crystals put aside, they all contain internal boundaries known as grain boundaries. In the metallographic laboratory, analysing grains' size in metallic and alloy samples such as aluminium or steel is important for quality-control. The...

**'EuroNano Forum 2013'**. The 'EuroNano Forum 2013' will be held from 18 to 20 June 2013 in Dublin, Ireland. Nanotechnologies offer great potential for achieving sustainable growth, improving the competitiveness of Europe's industries and protecting the environment. They also offer the possibility of creating highly-skilled jobs and increasing European's quality of life. With Horizon 2020 beginning in 2014, the conference will...

**'Dielectric 2013'**, A meeting entitled 'Dielectric 2013' will take place on 10 to 12 April 2013 in Reading, UK. A dielectric material is a substance that is a poor conductor of electricity, but an efficient supporter of electrostatic fields. Dielectrics constitute an important class of functional materials, which play a critical role in the establishment and evolution of modern electric engineering, electronics, photonics...

**'SMT Hybrid Packaging 2013'**. An event entitled 'SMT Hybrid Packaging 2013' will be held from 16 to 18 April 2013 in Nuremberg, Germany. Organised by Mesago, SMT Hybrid Packaging is an international information platform for all those interested in the latest trends in the field of System Integration in Micro Electronics. In addition to two conferences, 19 half-day tutorials and two workshops will be organised.

**'Structural Glass Conference'**, An event entitled 'Structural Glass Conference' will be held on 18 April 2013 in Porec, Croatia. Glass cannot compete with steel in terms of strength or durability, but it is the only structural material that offers the qualities of translucency and transparency. The use of glass has

evolved from purely decorative or architectural, to structural, encouraging glass technologies to advance concurrently with...

The use of glass has evolved from purely decorative or architectural, to structural, encouraging glass technologies to advance concurrently with...

**Third International Conference on Bio-Sensing Technology,** will take place from 12 to 15 May, 2013 in Sitges, Spain. Bio-sensing technologies are of increasing importance in healthcare, agri-food, environmental and security sectors, and this is reflected in the continued growth of global markets for such technologies.

**Second EOS Conference on Optofluidics,** will take place from 13 to 15 May 2013 in Munich, Germany. Optofluidics is a research and technology area that combines the advantages of microfluidics and optics. Although the term 'optofluidics' is less than 10 years old, the combination of light and non-solids is being looking into by researchers creating applications in fields ranging from imaging...

**'Biomolecules and Nanostructures 4',** will take place from 15 to 19 May 2013 in Pultusk, Poland. Biomolecular science is one of the most rapidly developing interdisciplinary areas in science. It stands at the crossroads of biological, chemical and physical sciences, and focuses on the understanding of cellular processes at the molecular level. Researchers are looking at biomolecules as...

**'XLVIII Zakopane School of Physics - Breaking Frontiers: Submicron Structures in Physics and Biology',** will be held from 20 to 25 May 2013 in Zakopane, Poland. Organized by the Institute of Nuclear Physics Polish Academy of Sciences in Krakow, the conference will be covering submicron structures from design and characterization to applications. The event will cover physics for medicine...

**'Graphene Week 2013',** An event entitled 'Graphene Week 2013' will be held from 2 to 7 June 2013 in Chemnitz, Germany. Graphene is a substance composed of pure carbon, with atoms arranged in a regular hexagonal pattern similar to graphite, but in a one-atom thick sheet. Graphene is already used in many items such as electrodes, solar cells, transistors, mobile devices and lithium-ion batteries. Many scientists believe it could...

**Sixth International Conference on Computational Methods and Experiments in Material Characterisation,** The Sixth International Conference on Computational Methods and Experiments in Material Characterisation will take place from 4 to 6 June 2013 in Siena, Italy. Materials science consists in linking the molecular properties and the relative performance of a material to its micro-structural features through characterisation. The increasing demand for high-quality products for both industry and consumers...

### 2.7. ENVIRONMENT, INCLUDING CLIMATE CHANGE

**Uzmanību, 2012.gada 10. jūlijā tika atvērta 6 sekojoši konkursi ir noslēgti**

**Uzmanību, Konferences:**

**'Cleantech Forum Europe'**. 'Cleantech Forum Europe' will be held from 16 to 18 April 2013 in Bilbao, Spain. In a remarkably short time, economic globalisation has changed the world's economic order, bringing new challenges and opportunities. Europe cannot compete in this new environment unless it becomes more innovative and responds more effectively to global demands. The European Union possesses extraordinary potential...

**'Geographic Human-Computer Interaction'**. A workshop entitled 'Geographic Human-Computer Interaction' will take place from 27 to 28 April 2013 in Paris, France. Geography is increasingly important to areas of human-computer interaction (HCI) ranging from social computing to mobile computing and natural user interfaces. Similarly, research in geography focuses more and more on HCI-related topics. There have been few opportunities, however, for...

**Seventh International Conference on the Impact of Environmental Factors on Health**. The Seventh International Conference on the Impact of Environmental Factors on Health will take place from 23 to 25 April 2013 in Budapest, Hungary. Environment-related health issues have become a major source of concern all over the world. Human health highly depends on several environmental factors such as air, water, soil and food quality. The ability to remove hazardous substances from the environment...

**'Developing new solar cells - cheaper, or more efficient?'**, London, UK A lecture entitled 'Developing new solar cells - cheaper, or more efficient' will take place on 17 April, 2013. Using solar cells to convert sunlight to electricity is an attractive way to reduce carbon emissions, but solar cells are still too expensive to be installed on the scale required. The next generation of solar cells aims to solve this problem using strongly absorbing materials such...

**'New Model Systems for Linking Evolutions and Ecology'**. An event entitled 'New Model Systems for Linking Evolutions and Ecology' will be held from 1 to 4 May 2013 in Heidelberg, Germany. A major obstacle in linking evolution and ecology has been that, for many of the preferred genetic and genomic research models, ecological information has been lacking. Conversely, preferred models for evolutionary ecology have generally not been amenable to genetic experiments...

**Second International Conference on Chemical, Ecology and Environmental Sciences (ICEES2013)**. The Second International Conference on Chemical, Ecology and Environmental Sciences will be held from 16 to 17 May 2013 in Venice, Italy. Chemicals released into the environment may have a

variety of adverse ecological effects. Ranging from death of fish and other to forest decline, ecological effects can be long- or short-term changes in the normal functioning of an ecosystem, resulting in economic, social,...

**Third International Conference on Environment and Industrial Innovation.** will be held from 19 to 20 May 2013 in Copenhagen, Denmark. The environmental problems currently facing advanced industrial countries are not new, and will continue to grow if nothing is done. Some people believe that regulation can help to address these problems, while at the same time make industry more competitive....

**First International Conference on a European Research Strategy for Intermodal Transport, Las Palmas de Gran Canaria, Spain** . The First International Conference on a European Research Strategy for Intermodal Transport will be held from 17 to 18 April 2013. There has been a continuous growth in traffic in Europe, but in contrast to the positive effects of increased mobility, this change raises concern at the European level. Suitable policy measures supporting the development of advanced technological...

## **2.9. SOCIO-ECONOMIC SCIENCES AND THE HUMANITIES**

**Uzman bu, 2012.gada 10. j lij atv rtie konkursi ir nosl gušies.**

**Uzman bu, Conferences:**

**'Poverty and Disability in Developing Countries'**. will take place from 3 to 5 April 2013 in London, UK. Disability has often been associated with poverty, but comparatively little rigorous quantitative research has been undertaken. Environmental barriers, limited access to education and services, poor states of social services due to economic restraints, and discriminatory attitudes and...

**'Trauma: Theory and Practice'**. A conference entitled 'Trauma: Theory and Practice' will take place from 19 to 22 March 2013 in Lisbon, Portugal. Traumatic events are shocking and emotionally overwhelming situations that may lead to death, serious injury or threat to physical integrity. Reactions to traumatic events vary considerably, ranging from relatively minor to severe and debilitating disruptions in the person's life. Trauma studies...

**'Identities and Identifications: Politicized Uses of Collective Identities', Zagreb, Croatia** will take place from 18 to 20 April 2013. In psychology and sociology, identity is a person's conception and expression of his/her individuality or group affiliations (such as national identity and cultural identity). The identity is conceived to provide unity and recognition while it also...

**'Geographic Human-Computer Interaction', Paris, France**, will take place from 27 to 28 April 2013. Geography is increasingly important to areas of human-computer interaction (HCI) ranging from social computing to mobile computing and natural user interfaces. Similarly, research in geography focuses more and more on HCI-related topics. There have been few opportunities, however, for...

**'International Gender Congress'**, will take place from 25 to 26 April 2013 in Istanbul, Turkey. The concept of gender deals with women's and men's place in society as well as related social expectations. Gender relations vary from one country to another and are strongly rooted in history. Academic studies in this field have expanded after the establishment of 'Gender Studies Programmes' in major universities...

**'International Conference on Aging and Cognition'**, will take place on 25 to 27 April 2013 in Dortmund, Germany. Changes in cognitive function, such as slow information processing, are common in normal aging. However, their extent varies considerably from one person to another, and cognitive decline is not inevitable. However, its causes remain unknown.

**'Fostering Innovation and Strengthening Synergies within the EU'**, A conference entitled 'Fostering Innovation and Strengthening Synergies within the EU' will be held from 29 to 30 April 2013 in Dublin, Ireland. What makes Knowledge and Innovation Communities (KIC) what they are? A KIC is a highly integrated, creative and excellence-driven partnership which brings together the fields of education, technology, research, business and entrepreneurship, in order to innovate...

**'Geography: Linking Tradition with Future'**, will take place from 9 to 11 May 2013 in Bruges, Belgium. The rapid changes affecting societies around the world, along with rising global sea level, are of high concern for geographers. Exploring issues ranging from physical, urban and rural environments and their evolution to climate, pollution, development and political-economy, they study...

**'Ways to Protolanguage 3'**, will take place from 25 to 26 May 2013 in Wroclaw, Poland .Proto-language (alternatively known as a parent language, or common ancestor) in the tree model of historical linguistics is a hypothetical, or reconstructed, typically extinct language. A number of attested - or documented - known languages are believed to descend from such languages, either by evolution...

**First International Workshop on Human Mobility Computing**, will be held on 3 June 2013 in Milan, Italy. Over the past few years, data capturing aspects of human mobility - such as mobile phone

records, GPS traces of vehicles and pedestrians, ticketing logs of public transportation, geo-tagged Web objects, photos and videos as well as records from roadside sensor networks - have become widely available....
