

Eiropas Savienības 7. lētvara programma pētniecību un tehnoloģiju attīstībai
Latvijas Nacionālās kontaktpunkta grupas

VĒSTIS

2013. gads ir pēdējais 7. IP gads un tā otrajā pusē ir atvērta tikai daži konkursi! Ir jāizvirzās idejas un jāskatās gatavoties HORIZONTS 2020 konkursiem. Tomēr veiksme vēl aktuālos 7. IP konkursos var būtiski nostiprināt jūs zinātniskās grupas, jo tie ir konkursi cilvēku resursu jomā. Līdz, pievēršot uzmanību sadaļai 2.13., t.i. PEOPLE programmā ir atvērta 4 M-C stipendiju konkursi, kuri piedāvā izbraukšanas un iebraukšanas stipendijas ES iekšpusē un ārpus robežām. Latvijā M-C stipendiju skaits nav liels, bet šo cilvēku „klubiņš” ir iespējams ar savu zinātnisko kapacitāti. Minētie konkursi paver ceļu jauniem pārkumiem un vajag atcerēties, ka varam aicināt pie mums arī cittautiešus un paši varam braukt ar M-C stipendiju pie kolēģiem uz citām valstīm.

‘Chromatin, Replication and Chromosomal Stability 2013’, will be held from 17 to 19 June 2013 in Copenhagen, Denmark. Genome stability is of primary importance for the survival and proper functioning of all organisms. The epigenetic framework guides events such as replication, repair and transcription, which in turn leave an imprint on chromatin and chromosomal structure. Understanding...

‘Cancer and Metabolism 2013’, An event entitled ‘Cancer and Metabolism 2013’ will be held from 24 to 25 June 2013 in Amsterdam, the Netherlands. Over the past few years the field of cancer metabolism has moved into the spotlight of cancer research and into the heart of the bio-industrial world. An increasing number of reports in the field of cancer bioenergetics support the idea that metabolic changes in tumour cells may be critical...

‘International Conference on Genomics in Europe’, An event entitled ‘International Conference on Genomics in Europe’ (ICG Europe) will be held from 25 to 28 June 2013 in Ghent, Belgium. Since the completion of the human genome in 2003 there have been constant challenges to genomic research technologies and public health strategies. Genomics has emerged to be one of most productive and innovative sectors in life science markets. Modern research in genomics...

‘Ubiquitin and Autophagy’, An event entitled ‘Ubiquitin and Autophagy’ will take place from 26 to 27 June 2013 in Amsterdam, the Netherlands. Nothing lasts forever. Many proteins, in fact, do not last more than a few minutes. The human body cells are continually building proteins, using them for a single task, and then discarding them. Cells need to control the destruction of their own proteins, making sure that they remove only...

18th International Conference on Calcium Binding Proteins and Calcium Function in Health and Disease, will be held from 30 June to 4 July 2013 in Kiruna, Sweden. Calcium (Ca²⁺) plays fundamental and diversified roles in neuronal plasticity. It has been shown to regulate neuronal gene expression, energy production, membrane excitability, synaptogenesis, synaptic transmission, and other processes underlying...

‘Biological Surfaces and Interfaces’, will be held from 30 June to 5 July 2013 in Sant Feliu de Guixols, Spain. The interest in biointerface science stems from the urgent need to achieve a better

understanding of interactions between biomolecules and surfaces. Rapid progress is driven by a number of growing industrial and clinical applications such as biosensors and biochips, tissue

First Iberian Meeting on Aerosol Science and Technology (RICTA 2013), will be held from 1 to 3 July 2013 in Évora, Portugal. Aerosols influence many areas of our daily life. As suspensions of solid or liquid particles in a gas they appear in many different forms such as clouds, fog, dust, fume, or smog. As air pollutants, they affect the global climate, visibility as well as our health, but they are..
